OTN Telemedicine Directory

How to build your profile

Building a consultant profile on the OTN's Telemedicine Directory helps you manage your Telemedicine practice the way you want, while giving referring physicians greater access to your specialized areas of practice.

To complete the profile form:

1. Print out the consultant profile form included on page 4 of this booklet.
2. The form is organized into the following sections that include: contact and practice information as well as scheduling and referral details.
3. Once complete, please email the profile form to telemedicineprofiles@otn.ca.
4. An OTN team member will then contact you within two business days to help you to customize your profile.

Please ensure that the information provided is kept current - as this ensures timely scheduling and referral instructions in communicating your Telemedicine practice details to other physicians and allied health care professionals.

If you have any question while completing the profile please call 1-866-454-6861 or email us at telemedicineprofiles@otn.ca.

Searching the directory

Once logged into the directory – you can filter your searches by All, Consultant or Site.

To search the directory:

1. Simply type in the specialization in the search field and press the search button (Figure 4).
2. This will bring up the results that are organized by Name, LHIN, catchment area as well as details regarding the specialization of practice. If you find a consultant or site of interest, click the relevant link and this will provide further profile details.
3. You will notice, that with the Consultant Profile you have the option to print, access a referral form or update the profile if necessary. Click on Back to search results to return to the main search page.
4. You can also make advanced searches by clicking the Advanced Search link. This allows you to search for consultants or sites based on specific information such as City, Postal Code or catchment area. If you require any suggestions when making a search - please click on the Search Tips link (Figure 5).

If you have any question while searching the directory please call 1-866-454-6861 or email us at telemedicineprofiles@otn.
